Ideal-ist services ...

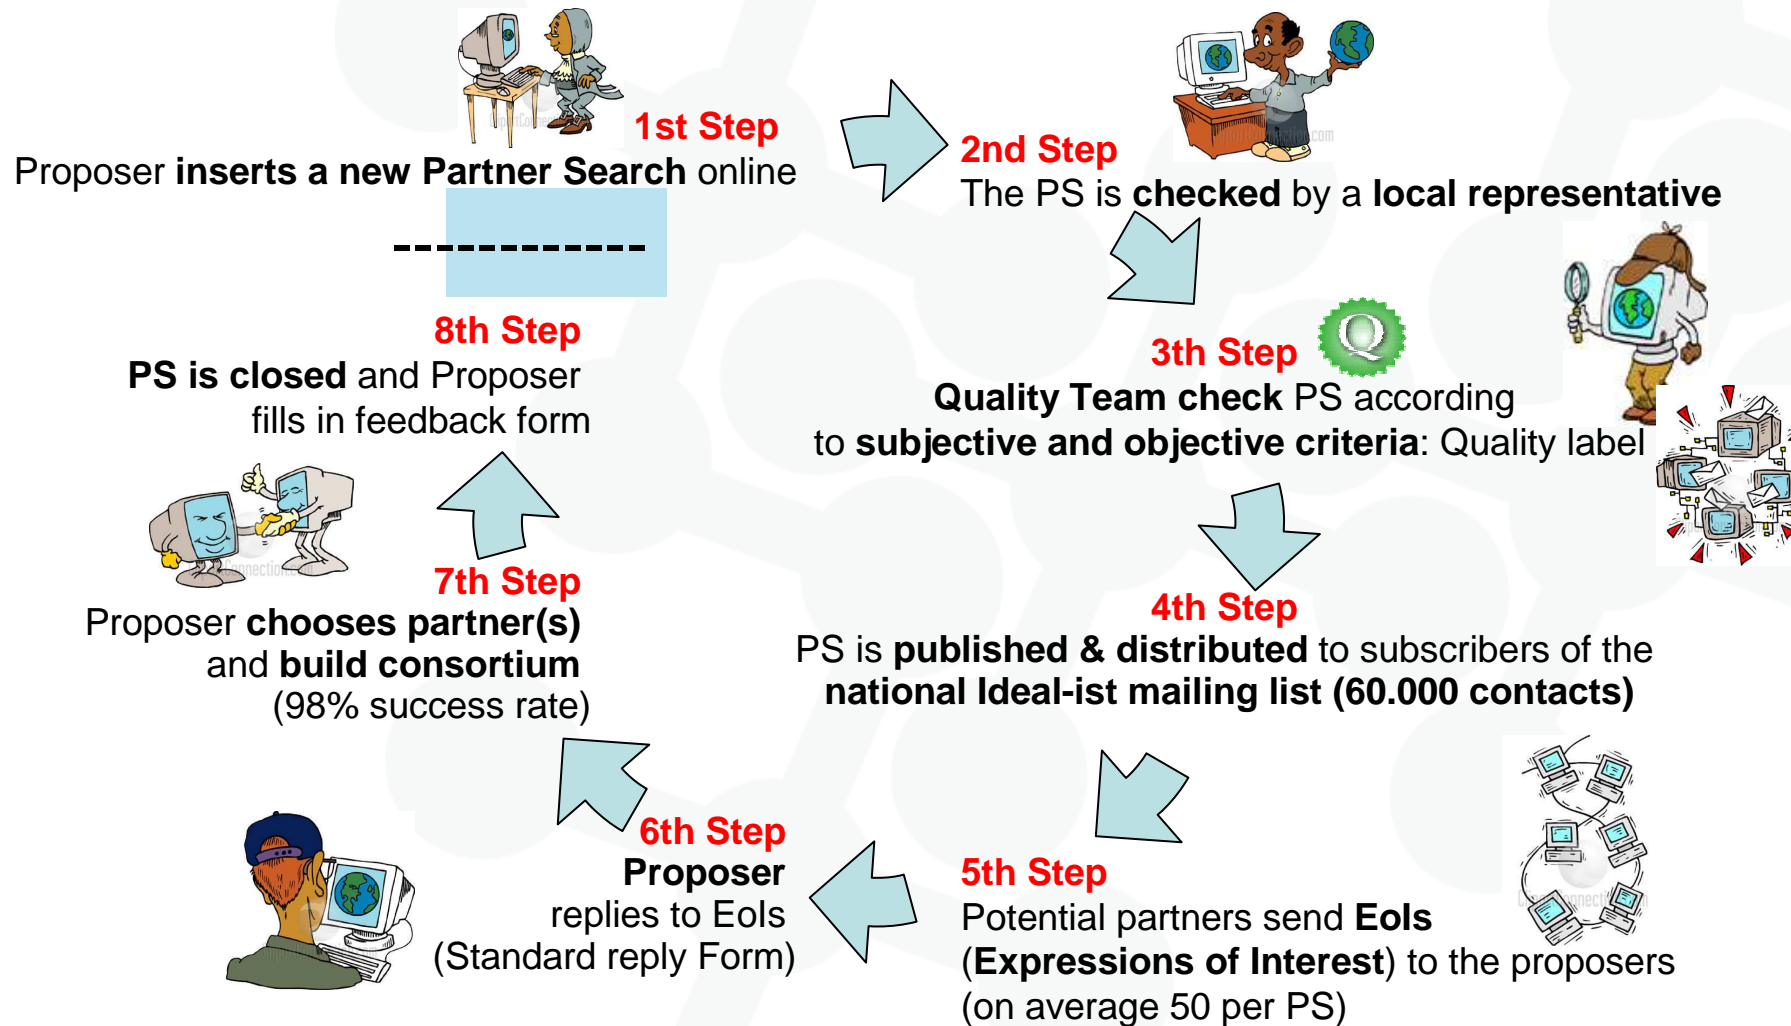

Ideal-ist supports Small and Medium enterprises (SMEs), Academia, Non-profit Organisations, larger Companies and public Administration, Newcomers, Research Organisations and consultancies in:

- **interpreting the ICT work programme** of FP7
- **submitting project ideas** in line with the Challenges & Objectives of FP7
- **finding the right partners for their project**
- **joining as partners** to other proposals
- **joining on-going projects** via competitive calls launched by project coordinators

How Ideal-ist finds partners for you ...

So far in FP7 ICT Calls:

- about **1000 partner searches** published with a **Quality Label**
- these represent **8,4%** of the **total proposals** submitted for ICT calls

More than **25.000 responses (Eol)** generated

- **> 90%** of the PS find **suitable partners**
- **~ 80%** of the cases finally **submit a proposal**
- **between 22% and 42%** of these are evaluated **over thresholds** (depending on the call), **with an average score over 11/15**

This success results from:

- the **effectiveness of the Quality check** against predefined criteria
support for the proposer e.g. to have better focused submitted proposals
increase the chances of being retained for funding
- the **support for completing the consortium** by the **unique and fast partner search tool**,
beneficial for enhancing the chances for a positive evaluation
- the **support of the large international ICT network**,
publishes each partner search in more than 75 countries worldwide
